

# ENVIRONMENTAL OBJECTIVES

To ensure alignment with the Gerosa Group's policy, Rieusset's specific environmental objectives have been defined in close agreement with the Gerosa Group's global guidelines and commitments. Our approach seeks to reinforce the established standards by actively contributing to its global goals through concrete and measurable actions adapted to the context of Rieusset's organization.

To this end, the objectives that have been set are the following:

- Maintaining and constantly improving the **Environmental Management System** based on ISO 14001 and FSC® (FSC® License No. C129717)
- Continually improving our **ECOVADIS score** in the areas of Environment, Labor Practices and Human Rights, Ethics and Sustainable Procurement
- **Periodically reviewing our potential environmental impacts** derived from the processes of our activity and **using indicators** to monitor their evolution
- **Reducing our carbon footprint by 5%** compared to the base year taking into account its different scopes, 1, 2 and 3
- Introducing environmental considerations into our **decision making process**
- Developing our activity under the principle of the **circular economy**
- Periodically reviewing our **waste** to achieve a revaluation of **98% or higher**
- **Annually reducing electricity, gas and water consumption by 5%** with regard to our production
- Working towards 50% of our products being **recyclable** in 2025
- **Reviewing specific environmental objectives on an annual basis**
