

FOOD SAFETY OBJECTIVES

To ensure alignment with the Gerosa Group's policy, Rieusset's specific food safety objectives have been defined in close agreement with the Gerosa Group's global guidelines and commitments. Our approach seeks to reinforce the established standards by actively contributing to its global goals through concrete and measurable actions adapted to the context of Rieusset's organization.

To this end, the objectives that have been set are the following:

- Continuously improving the **Food Safety Management System** based on BRCGS Packaging and ISO 22000 Standard
- Maintaining the **highest score of AA+** in the BRCGS Packaging Standard audit
- Conducting an **annual unannounced audit** of the BRCGS Packaging Standard
- Introducing food safety considerations into our **decision making process**
- Involving all HARA team personnel in hygiene checks with the aim of raising their awareness
- Working towards **0 food safety claims**
- **100% compliance with cleaning plans**
- **Reviewing specific food safety objectives on an annual basis**
